COMMON SENSE and FOOD SUPPLIES

¶ It has been the fashion now for many years to cater to the whims and prejudices of the consumer, rather than to his judgement.

¶ It has been a profitable scheme for manufacturers who have undertaken it and for the experts who have aided in this exploitation.

¶ The consumer knows that food prices have been advancing but he does not realize that he aids the upward movement when he demands "The little package" expensively wrapped, elaborately labeled, and advertised to the furthest limits of extravagance.

¶ Our aim is to protect the consumers' interest. We see to it that the food we sell is pure and good and that the prices are the lowest that can be made in safety.

¶ We are constantly combatting schemes that are calculated to give the consumer little value and the promoter big profit.

¶ Consult freely with the heads of our departments. They are instructed to aid patrons, with their knowledge about the goods they handle and to assist them in every way to effect economy.

REAL ESTATE

RECORD

EXPLANATORY NOTE

For Real Estate Record See Page 449

The Real Estate Record gives the owner's name, location, and assessors' valuation of each estate in Worcester, with separate valuation of building and lot, and the size of lot in square feet or acres, being a full transcript from the assessors' books, of all matter relating to the real estate of the city.

This information represents the condition of property as of April 1st, 1917, and does not show changes that have occurred since that time.

The name given is usually that of the owner, but in some cases the property is assessed to the tenant, an agent, or other person. The valuations are the assessors' estimates of the value of estates, but are understood to be in most cases under the market value.

Non-resident owners are indicated by an asterisk preceding the name; their place of residence or post-office address when known follows the name, and when outside of Massachusetts the State is added.

The Index following makes it easy to find any particular estate when the owner's name is unknown.

INDEX OF ESTATES

This index is to facilitate reference to the page upon which the property statement of an estate appears, when the owner's name is unknown.

Houses are referred to by the street number in Roman type, followed by the page on which it will be found in **full-face type.** Vacant lots are referred to only by the page numbers.

When the houses on a street are not numbered, or when the assessors have failed to record the street number, ciphers (00) have been substituted for the street number.

EXAMPLE.—Wanting to know the valuation of the estate No. 170 Austin Street, find Austin Street in the Index, and you will see against it in numerical order, 170-**751,** which means that the owner and valuation of the estate number 170 Austin Street will be found on page 751. Not finding a number given, the estate will be included among the unnumbered houses.

Or wanting to know the valuation of a vacant lot on Brittan Lane, turn to Brittan Lane and you will find: Lots, **520, 620, 646.** The lot you are looking for will be found on one of these pages.
